Training in implementing breastfeeding peer support in your community

A full peer support syllabus and training in its delivery

Ongoing supervision for standard setting and quality control

Provision of enrichment through activity and study days to keep peer supporters and health professional facilitators up to date with the latest breastfeeding information

Breastfeeding LENS Ltd is a company with good sound credentials. The five directors are highly experienced International Board Certified Lactation Consultants (IBCLC).

Breastfeeding Lens has a multi-disciplinary team with experience in education and training, study day and conference organisation, counselling, and publishing.

The individual directors are all IBCLCs and have been actively involved advocating for breastfeeding at national and local levels for many years. They have extensive experience of developing and implementing peer support matched to individual community needs.

Our experience of working with mothers to help them overcome breastfeeding challenges underpins the training and consultations we offer.

We understand mothers and babies and applying breastfeeding theory to effective practice.
